

Rock Paper Scissors coding exercise

credit: https://en.wikipedia.org/wiki/Rock_paper_scissors#/media/File:Rock-paper-scissors.svg

The purpose of this exercise is to create a program that will allow a user to play against the computer the game of rock paper scissors.

Game rules:

- Rock beats Scissors
- Scissors beats Paper
- Paper beats Rock

Application features:

- User submits their choice via the command line
- Computer picks random selection
- Display result on screen and allow to restart game without exiting

Tips:

You will be judged on the quality of your code and the usefulness of your unit tests. SOLID principles should be applied where appropriate.
